1. MINUTES OF PREVIOUS MEETING

The Minutes of the twenty-ninth meeting were approved as written.

In the discussion relative to the minutes, MR. SULLIVAN introduced the following memorandum:

> "The Committee has recently been advised that the State Department does not desire to have a committee headed by someone outside the Government Service to prepare a report on 'Basic Policies and Objectives of the United States in the Pacific and Far East'. This conclusion is entirely acceptable since the method to be followed in arriving at a statement of such policies and objectives is clearly for the State Department to determine.
>
> "However, I do wish to emphasize again the importance to the Navy Department of having developed and stated the long range policies and objectives of the United States in the Pacific and Far Eastern areas. It is the Navy's feeling that this study should be pursued in some acceptable manner to the end that statements of our policies in this whole area, agreed upon by the three Departments, may be available in the near future.
>
> "It is immaterial to the Navy whether this is done in one study or in several separate but integrated studies; or whether it is done by the Far Eastern Subcommittee, a special subcommittee for this sole purpose, or in the first instance by the State Department with subsequent military collaboration. However, I do feel strongly that we should not permit the SWNCC 54 paper to be removed from the agenda unless we have first agreed upon the method to be followed on the problem. I feel that we should agree upon that promptly.
>
> "It is my recommendation that this matter be on the agenda for the next meeting of the Committee and that a method of proceeding be agreed upon at that time."

GENERAL HULL stated that War Department considered it highly important to have the matter resolved and that it was their desire to retain SWNCC 54 on the agenda.

THE COMMITTEE agreed:

a. That SWNCC 54 should remain on the agenda, and

b. That consideration of the matter be given a high priority at the next meeting of SWNCC.

2. SWNCC 150/6

After considerable discussion during which the War and Navy members were generally in accord that the paper prepared by FEAC Working Committee No. 1 contained certain phraseology, particularly in regard to the future economy of Japan, which may be detrimental to the interests of the United States, it was recommended that the Committee not approve SWNCC 150/6 at this time.

COLONEL BABCOCK, General McCoy's representative at the meeting, stated that General McCoy intended to look to the Committee for guidance on Far Eastern Advisory Committee matters.

GENERAL HULL introduced a memorandum outlining War Department views on the FEAC draft as compared to the original paper on U.S. Initial Post-Surrender Policies.

MR. SULLIVAN proposed that the Committee adopt the paper introduced by General Hull with an addendum reserving the right to include additional comments.

MR. HICKERSON suggested advising General McCoy that the Committee had read the paper with great interest and were satisfied with the work being done, however there were certain parts of the proposed draft which merited further consideration.

THE COMMITTEE agreed:

a. That General McCoy should be given a memorandum from the Committee in the form attached (Appendix) expressing satisfaction with the progress made but noting that, in its opinion, certain parts of the proposed draft merited further consideration.

b. That in addition General McCoy be given memoranda setting forth the views of the three Departments which were discussed in detail during the Committee meeting.

APPENDIX

THE STATE-WAR-NAVY COORDINATING COMMITTEE
WASHINGTON, D. C.

SWN-3555
27 November 1945

MEMORANDUM FOR MAJOR GENERAL FRANK R. McCOY:

Subject: Initial Post-Surrender Policy for Japan.

References: a. SWNCC 150/6
b. FEAC 2/2

The State-War-Navy Coordinating Committee has considered the proposed draft of a statement of general policy to be applied to Japan during the initial post-surrender period and prepared by a Working Committee of the Far Eastern Advisory Commission.

The Committee has examined with great interest the proposed draft presented by Working Committee No. 1 and is impressed with the progress which has been made.

The Committee finds itself in substantial agreement with a large part of the proposed draft but feels there are certain points which merit further consideration.

Preliminary study reveals that the proposed draft differs substantially from SWNCC 150/4/A in certain important respects, particularly in the economic sections as follows:

a. The question arises as to whether the cumulative effect of the changes proposed may alter the basic concept of the United States as to the economic future of Japan.

b. The proposed treatment of reparations might increase the economic responsibilities of the United States in Japan while exacting from Japan unlimited contributions for other nations.

c. Certain other proposed changes are ambiguous and can be expected to introduce unnecessary difficulties of interpretation.

d. Changes are proposed which alter the authority of the Supreme Commander for the Allied Powers; it does not appear desirable to consider such changes prior to the determination of the Terms of Reference of the Far Eastern Advisory Commission and the reserve powers of the Supreme Commander.

The State-War-Navy Coordinating Committee concludes, therefore, that it would be undesirable for you to approve a procedure by which the Far Eastern Advisory Commission would forward the proposed draft to the member governments. Since the Far Eastern Advisory Commission constitutes the most convenient forum for multilateral discussion of the proposed draft, it would seem that further consideration by the Commission would be most useful in seeking general agreement.

RESTRICTED

The State-War-Navy Coordinating Committee recognizes the desirability of reaching tentative agreement with the other members of the Far Eastern Advisory Commission on a revised statement of Allied policy toward Japan. It does not believe, however, that it can advise you to approve changes of such substance without careful examination.

For the State-War-Navy Coordinating Committee:

(Sgd) JOHN D. HICKERSON
Acting Chairman
