S E C R E T

1. MINUTES OF THE PREVIOUS MEETING

The Minutes of the 52nd Meeting were approved without discussion.

2. POLICY TOWARD ANNOUNCEMENT OF THE PROVISIONS FOR THE REVIEW OF THE NEW JAPANESE CONSTITUTION (SWNCC 228/13)

After some discussion, during the course of which the STATE MEMBER gave his reasons for believing that the authority of the FEC in relation to their review of the Japanese Constitution should be given publicity both here and in Japan, and the WAR MEMBER expressed an opposite point of view, THE COMMITTEE agreed to defer consideration of SWNCC 228/13 with the understanding that in the interim the WAR MEMBER would obtain the comments of General MacArthur on this matter.

3. UNITED STATES INITIAL POST-DEFEAT POLICY RELATING TO JAPAN (SWNCC 150/9)

After considerable discussion, during the course of which the WAR MEMBER offered several amendments to the paper and pointed out further that he did not agree with its generally negative nature, THE COMMITTEE agreed to refer SWNCC 150/9 to an ad hoc Committee with instructions that the latter should revise the subject paper and draft a statement for transmission to the U.S. member of the FEC in the light of the discussion and amendments proposed and considered at this meeting.

THE COMMITTEE also agreed that the following should appear in the statement to the U.S. Member, FEC:

"Acceptance by the United States of a policy statement containing the phrase 'all such Japanese goods as exist or may, in the future, be produced and which under the policies set pursuant to the terms of reference of the FEC should be made available for this purpose' or phrases of the same meaning does not commit the United States Government with respect to reparations from output of current or future production in Japan. Until SWNCC has agreed upon

this point concerning reparations from current production or future production, the U.S. representative on the FEC cannot commit the U.S. on this point and it to make certain that the minutes of the FEC will state this fact prior to agreeing to accept a policy statement containing the aforementioned phrase or phrases of the same meaning."

Only in the qualified sense specified above does the War Department accept the first sentence of paragraph 4, page 119, of SWNCC 150/9 with line 29 of page 119 amended to read, "set pursuant to the terms of reference of by the Far Eastern Commission should be made available for."

(SWNCC 150/9 as revised together with the proposed statement to the U.S. Member of the FEC will be circulated separately.)

4. REVISION OF YEN-DOLLAR MILITARY CONVERSION RATE (SFE 184)

After a short discussion THE COMMITTEE agreed:

a. To defer action on the subject paper.

b. That the problem should be considered at a special high level meeting with representatives of the War, Navy, State and Treasury Departments.

5. SUPERVISION AND COORDINATION OF BASIC POLICIES GOVERNING AMERICAN ACTIVITIES IN CHINA (SWNCC 349)

The WAR MEMBER said that he approved this paper subject to the changing of the last four words of the second paragraph of the Draft Presidential Directive set forth in the Annex to the Appendix to read "among Departments concerned" in place of "on a Departmental level". The ACTING NAVY MEMBER said that he could not give Navy concurrence to the paper until further study. The STATE MEMBER said that the State Department approved the paper subject to the WAR MEMBER's revision. THE COMMITTEE agreed to defer consideration of this paper until MR. SULLIVAN had had an opportunity to consider it, at which time action would be taken on an informal basis.
