Lapham Urges More ECA Aid to Formosa

SHANGHAI, Feb. 8 (INS)—Increased aid for the island of Formosa was urged today by Roger Lapham, chief of the ECA Mission to China.

The former mayor of San Francisco said he would fly to Washington, D. C., from Shanghai February 1 to confer with Marshall Plan Administrator Paul Hoffman on Formosa's needs.

Lapham said:

"I shall urge expansion of electric power production and larger fertilizer shipments to Formosa.

"It is my idea not only to increase food production but to increase the income and purchasing power of the farmers.

'I am impressed by the habits and industry of the people of the island and their strength of character in the face of many problems.

"I want to emphasize that our aid program is for people whose homes and livelihood have been established on Formosa—not for a favored few but for multitudes of hard-working people who merit the greatest respect."
