Reference ASTARMAT 290200Z July OP 183.

Chinese are up to old tricks of playing SCAP off against Washington and US official established Taipei.

Am of opinion some strong measure necessary to shake realization into Chinese Government that this is no time for games.

Also believe that move should be made to show solidarity among SCAP, Washington and this Embassy. One method of doing so, and an important one, is for SCAP to insist copies of all information forwarded SCAP through Chinese Mission in Tokyo be handed Ho attaches here.

Cannot overemphasize seriousness of internal differences here which fatally weaken island defense. I do not know what moves Washington has in mind, but previous opinion that present regime unable defend Formosa still holds. Atmosphere which was bad enough before has in last month become far worse.

Have written letter to Chou Chih-jou requesting him provide information sought by Attaches on instructions from Washington stating more such requests to be expected, pointing out it is to great advantage of Chinese armed forces to provide desired information and mentioning the mutual interest we have in defense of Taiwan.

Chou may have been stalling in asking that I confirm post on request originated Washington. We shall soon know. News of Rankin and Jarrett appointments may effect some change of attitude but there are reasons for doubting this.

STRONG
