Enclosure of Mr. Sec. Seward
from the opinion of the Consul at Shanghai
whose views are in accord with those
of all the Consuls at Shanghai except
the French - that it diverges from the
opinions of the Ministers at Peking as
indicated in the form of protest drawn
up by him in Concert with Mr Wilkinson
& the Prussian Russian R.R. at Peking
and that it seems illogical in as much
as it insists upon an objection only
to the Jr. Code while there are other objection
of such less importance to be waived -

Should it appear desirable I
shall at a future day give my views
more fully touching on the salient features
of the question which may be somewhat
obscured now in the mass of correspondence

Sir

It gives me great pleasure to thank, through you, in the name of my Govt Charles Conrad Esqr Her Majesty's Consul at Taiwan. Commander E. D. Broad of H M. S. "Covenant", with the officers and crew of the same, for their prompt and courageous efforts to rescue and avenge the Captain and Crew of the United States Bark "River".

The manner of their conduct was as admirable as the motives which prompted it. "We both fully agreed that though the vessel was American it was our duty to render the same assistance to the crew as we should had it been a British ship" This noble language of the Consul - alluding to himself and Commander Broad - states the policy which should guide two Kindred nations. It is the fruit of that co-operative system, in the east, approved by our respective Governments. It recalls the best souvenirs of our history and will awaken a new sense of

obligation in the breasts of my countrymen.

I have already had the pleasure of calling the attention of my Govt. to the conduct of Consul Carroll and Commander Broad. The names of the officers and crew of the "Comorant" have also been brought to its notice.

May I now request you to acquaint Her Majesty's Govt. with this inadequate expression of thanks to the end that it may appreciate, as others do, the humanity and valor of these officers and sailors

I have the honor
to be Sir
