-inform you that I have already named the Com-

On the following day, the 19th inst. Baron

the Chinese Government in this Case, I have
agreed to take the Viceroy's Small Steamer Ma

Kee on the 25th

Dispatch 4th 1867

Enclosure No 1—

with Dispatch No 35.

Enclosing Sub-enclosure

No 13. Co.

Relating to arrest of
Mr Burk "Rover" at
Formosa.

Copy of a Dispatch addressed by the H.S. Consul at Amoy to the Viceroy of the Fokkien Province dated Augst 6th 1867.

I have the honor to acknowledge receipt of your dispatch relating to the positive orders given to the authorities of Formosa to settle at once, and punctually thereafter of the "Rover" I have seen with satisfaction in the Dispatch referred to above that your Excellency has given orders to the Governor and the General Commanding at Formosa to occupy the Southern Bay and to punish the guilty parties; and also that Your Excellency has rendered an account to the Emperor of your determination to send at once to Formosa the General Tsi Seng and the Intendant Seng Chang to aid the authorities of the island in executing their orders, chiefly as to what relates to the delivering in my hands the remains of those who have been murdered, at the time of the wreck, and the immediate rescue of those who are yet alive.

Although I take note full consideration of the promptitude with which your Excellency has acted, I am compelled to call the attention of Your Excellency, to a very serious point, viz

the

the absolute necessity of taking energetic measures to prevent the recurrence of such atrocities in the future. In my opinion such measure should consist of the permanent military occupation of the Southern Bay by a force of Five or Six hundred men, and the establishment of a civil authority at Liang Tsiau Bay a series of measures that would encourage the Chinese population of the Western Coast to settle on that rich Country and to improve it; and it would offer a secure asylum to the merchant Ships that might hereafter be wrecked on that Coast, that they would not be captured and plundered, and their Crews murdered. All parties interested would feel themselves equally satisfied in hearing that such an arrangement had been come to, and Your Excellency would have rendered a Striking service to the Chinese Government, which the Emperor is not likely to overlook.

As for me I must add that His Excellency the Ambassador and Minister Plenipotentiary of the U.S. at the Court of Peking would find himself satisfied should both points adjusted above be settled in Conformity with my wishes; and that this arrangement would put an end to the case of the Rover, still open.

The instructions I have received from His Excellency the Ambassador of the U.S. at Peking require that I should go to Tiensufoo to receive the remains of such of my Countrymen who have been murdered, and those who have been spared. My first thought was to proceed to Tiensufoo in an American man of war but Your Excellency having expressed the desire that the U.S. Gunboat postpone visiting for the present the port of Liang Tsiau for fear that the national susceptibilities of the Chinese be touched, I have to say that Considering the friendly relations now existing between both Countries, and with a view to maintain and if possible extend such relations, I am ready to proceed to Formosa in one of Your Excellencies Steamers. If the Steamer "Chang Ching" does not arrive in a few days at Tao Shan Your Excellency might borrow the Customs Schooner "Tinder" and the Commissioner would certainly agree to any such arrangement.

In this case Your Excellency would have merely to hand to the undersigned an Official Dispatch for the Governor of Formosa relating

relating to the occupation of the Southern Bay and to order one of Son Excellency's officers to accompany that Son Excellency's orders are carried into effect, and to make an amicable settlement of this unpleasant affair Cochinn.

Translation of a letter from the Viceroy of the Pakkien Province to Gen: LeGendre US Consul at Amoy dated Augt 4th 1867.

In answer to your Despatch and to your private note 1st relating to the establishment of a permanent military occupation of the Southern bay as shewn on the map annexed to your private note, and with a view to prevent any new complication on the part of the Savages; 2nd, to the restitution of the remains of such of the Crew of the Rover who have been murdered there; and 3rd to the Steamer that would convey you to Formosa.

I have the honor to inform you that I have already communicated to the Throne the orders sent by me to the authorities at Formosa, and my Special despatches there to settle at once and in conformity with justice all that relates to the wreck of the "Rover" and you may rest assured that I shall not allow any delay in the settlement of this affair.

As to what relates to the military occupation of the Bay near Liang Tien the question shall be solved amicably after the expedition has taken place, and on receipt of the report of the authorities at Formosa relating thereto

I

In answer to your letter to me dated Aug 16th relating to the Formosa affair and by which you ask that position orders embodied in an official Dispatch be sent to the Governor of Formosa and to the Prefect at Tainanfoo relating to the military occupation of the Southern bay; I have to inform you that I have already named the Commanding officer of the force of Occupation Keoon Tehoung Lee and have ordered him to accost you to Formosa. Sir

I have the honor to acknowledge the reception
of your communication dated Amoy China
July 30th 1864 enclosing a Dispatch received
by you from the Viceroy of the Fokkien Province:
also an extract from a dispatch received from
the United States Minister at Peking.
I regret that I cannot spare a vessel at this
time to go to Formosa, as some of them are
about returning to the United States.
It would give me much pleasure to hear of the
Colonizing of the South bay; but the evident
indisposition of the Taotai of Taiwan indicates
that the Commands of the Viceroy of Fokkien
will not avail much towards that object at
present.
