Government and therefore not binding. He speaks of the telegraph which has been constructed from Pagodah Anchorage to Foochow and the prospects for its further introduction into China. A Contract for a land wire from Taiwanfoo in Central Formosa to Tamsuy thence a cable to the mainland across the Channel, and thence a land wire to Foochow has been entered into with the "G. N. T. Co" of Denmark. The Company are to build the line for the Govt of China.

We shall next hope for a line from Foochow to Amoy connecting with the main line from Shanghai. So much for the invasion of Formosa.

The Chinese authorities are endeavouring to effect a loan of some ten million of dollars from foreign capitalists, and are otherwise industriously making preparations for war.

No further news has been received of operations in Formosa since my last report.
