POLITICO-MILITARY PROBLEMS IN THE FAR EAST:
NATIONAL COMPOSITION OF FORCES TO OCCUPY FORMOSA

Report by the State-War-Navy Coordinating Subcommittee
For the Far East.

1. The problem is to determine United States policy regarding occupation of Formosa by United States forces and establishment of military government therein.

2. General Order No. 1., issued to the Japanese Imperial General Headquarters by the Supreme Commander for the Allied Powers, requires surrender of all Japanese armed forces in Formosa to Generalissimo Chiang Kai-shek.

3. The Cairo Declaration, signed by the United States, China, and the United Kingdom, states, among other things, that Formosa shall be restored to the Republic of China.

4. Under authority of General Order No. 1., the surrender of Japanese forces in Formosa will be received by the Chinese. There is, therefore, no apparent reason why the United States should be required to occupy Formosa. In the event China is unable to establish control in Formosa, reasons my develop for the entry of the United States. One such reason may be the need for obtaining food products.

5. It is therefore concluded that if military or other considerations require that United States forces enter Formosa, there are no political objections to occupation and the establishment of a military government therein. Political policies of such occupation and its duration will require later determination depending upon circumstances then existing.

6. It is recommended that:
