SUMMARY OF INFORMATION:

SUBJECT: Formosan Independence Movement.

1. Reference is made to former Summaries of Information dated 8 April 1949, 24 May 1949, and 12 August 1949, copies of which are attached as inclosures.

2. According to most recent reports, by September 1949, Dr. Thomas W. I. Liao, leader of the Formosan rightist independence movements, had reshuffled, amalgamated, and renamed the organizational framework both in Japan and in Hongkong, where his headquarters were originally established.

3. The Formosan Re-emancipation League, the parent organization in Hongkong was apparently renamed the "Formosan Peoples League" (Taiwan Minshu Renmei). Thomas W. I. Liao remains as President and Y. K. Lim, Peter Huang and K. S. Lau were appointed as directors of the Organizational Department. Formosans in Japan were represented by Frank S. Lim as confidential secretary, and Y. T. Tsong as Press secretary.

4. Shortly thereafter, a new proclamation was issued to the effect that this organization was bent on fighting the Chinese Nationalist Government for the liberation of the Formosan island.

5. The rightist groups in Japan were consolidated under the name "Formosan Re-emancipation League" (Taiwan Saikaiho Renmei), with two branches. The Kanto Area District covers Tokyo, Yokohama, and adjacent areas and the Kansai Area District covers Kyoto, Osaka, and Kobe. The headquarters of the league is located in Tokyo with Frank S. Lim as leader. Lu Chin Lon (RO Kinki) (Formosan) was appointed as the acting chief of the Kansai Area District which has about 100 members.

6. The objective of the Japan organization, as stated in its regulations, is to realize the independence of the Formosans through promotion of the Union of Formosans.

7. Alfred P. L. Khu who left Japan in July 1949, returned to Tokyo on a two-weeks tourist visa on 19 August 1949, for the purpose of aiding in the reorganization program. Khu stated he was disappointed over the failure of the United States Government to take action on the many petitions and requests submitted in behalf of the Formosan Leagues. He said that the

United States still has two avenues left open: (1) To furnish the Formosans with arms and ammunition and (2) to provide Formosans with money with which to purchase such arms and ammunition.

8. Rightist propaganda in favor of "Formosan Independence" continues in the form of proclamations, proposals, memorandums and appeals prepared by Liao, Lim, Khu and Tsong. This material is intended for transmittal to President Truman, Secretary of State Dean Acheson, and to Mr. Sebald for transmittal to General MacArthur. Tsong has also prepared a "White Paper" which contains copies of documents submitted previously to United Nations, the United States Government, and others and stated that he is forwarding copies to press representatives of all major countries except China, the USSR and its satellites. Tsong added that the first two copies were sent to Messrs Scott and Cook of the British Mission in Tokyo.

9. The rightists are also publicizing their "Independence Movement" through a magazine called "Advance" which is issued by the Formosan Research Society, Hyogo-ken and financed by the Kansai (Kobe) Area District of the Formosan League for Re-emancipation. Another pamphlet named "Vanguard" (Ch'ien Feng) is edited by F. S. Lim, Chairman of the Kanto (Tokyo) Area Branch of the League.

10. Liao, in a recent letter, urged Lim to start a vigorous propaganda campaign in Japan against Communism in Formosa by using certain slogans, samples of which follow:

America and the Allied Countries will never allow the Chinese Communists to invade Formosa.

Non-Communist Independent Formosa can only rescue the Formosans.

Formosa's Bolshevization means an endless tragedy in Formosa.

Chinese Communists are the vanguards of International Communism headed by the Soviet!

Dr. Liao will come back to Formosa before long. He hopes to see his dear fellow-countrymen again in his beloved native country.

Moscow ordered Chinese Communists to occupy Formosa!

11. Associated Press, in an article dated 17 October 1949, reported that Thomas W. I. Liao was then in Manila and would soon begin his campaign for world support of the Formosan independence campaign. In recent denunciations of both Chinese Nationalists and Reds, Formosan rightists are quoted in an

DECLASSIFIED
Authority NND851506

CI Div S/I, Formosan Independence Movement, dtd 7 December 1949.

International News Service dispatch dated 3 December 1949 and an Associated Press dispatch dated 5 December 1949, as calling the Nationalists "merciless robbers, murderers, and blood sucking demons," and stating flatly that they "detest the Reds."

12. Recent information indicates that a newcomer by the name of Aizawa (fnu) (Formosan) had started a campaign against the Chinese Nationalists and for the liberation of Formosa through an organization named Formosan Democratic Independence Party (Taiwan Min Chu Tu Li Tang). He is reported to have said that he is secretly working to win over all the police forces on the island, the majority of whom are Formosans.

13. Aizawa, whose real name is Lan, Chia-Ching, claims that he is an ex-Lt General of the Chinese Nationalist Army and pleads, therefore, that his contact with CIC not be revealed to the Chinese Mission in Tokyo.

14. In order to counteract above rightist propaganda the Formosan Communists in Japan have started a campaign to denounce all the Formosan rightist organizations and their leaders as compradors and members of a spy organization for a certain unnamed country, and that Formosa must be liberated by China from the Kuomintang reactionaries and the United States' militarists.

15. This anti-rightist and pro-communist progaganda is issued through the Chinese Resident New Democratic Association (Kakyo Shin Minshu Kyokai) in Osaka publication named the Chinese Resident Democratic News (Kankyo Shin Minshu Ho), and through the Chinese Residents Association Periodical (Tung Ching Hua Ch'iao Hui Pao) in Tokyo.

16. Other leftist organizations supporting the above line are:

The Formosan Democratic Autonomy League (outlawed underground leftist organization in Formosa)
Chinese Overseas Association
Chinese Students General Association
Overseas Chinese Democratic Acceleration League
Democratic Chinese Research Institute.

17. It has also been reported that the Japan Communist Party expects to initiate a movement to oppose an independent Formosa by conducting a drive which will include: (1) dissemination of propaganda that Formosan independence is being plotted by the Chinese Nationalist Government, (2) solicitation of signatures to a mass petition protesting colonization of Formosa, (3) spreading the allegation that change of government in China does not change the status of Formosa and (4) opposition to trusteeship for Formosa.

DECLASSIFIED
Authority NND851506

CI Div S/I, Formosan Independence Movement, dtd 7 December 1949.

18. Although, as intimated above, a certain few Formosan Independence Movement leaders have been very vocal within the past year in propagandizing their objectives, there has been no indication of any large following among their fellow Formosans in Japan, or any marked fervor for the cause except by the chief protaganists themselves.

SUMMARY OF INFORMATION

SUBJECT: Formosan Liberation Movements

1. There appears to be two movements on foot in Japan aimed at the liberation of Formosa from her present Chinese masters, one Communist inspired and the other straight revolutionary.

2. The Communist movement seems to be under the auspices of the Autonomous Liberation Group (Jiji Kaiho Ha) whose leading figure is YANG Chun Sung (F) (YO Shun Sho), vice president and brains of the Overseas Chinese Democratic Association (Communist front), 46-ni, 10, Nishikata-machi, Bunkyo-ku, Tokyo.

3. YANG (above) is a close friend of LIU Ming Tien (F) (Ryu Mei Den), a section chief of General Chinese Association of Japan, who has been directed by the Chief of the Chinese Mission to investigate the Formosan Independence movement in Japan. YANG corresponds with one CHIANG Jui Jen, a Formosan Communist at 2-lon, 4-hao, Hsiwang-chieh, Tunglo wan, Hong Kong, China.

4. YANG is also reported to be a member of the Central Executive Committee of the Tokyo General Chinese Association (Tokyo Kakyo So Kai), a Formosan organization of approximately 8,000 members with headquarters at the Showa Elementary School, near Tokyo Central Station. He addressed students of this school on "The Independence of Formosa" in October 1948. The principal of the school is PAO Hsiang Yin (F) (HO Sho U), and the president of the Association LI I Wen (RIN I Bun).

5. The Autonomous Liberation Group is believed to be a link in the all-China "liberation" drive staged by the Communists. A prominent figure in Taihoku, Formosa is HSIEH Sha, a woman CCP member.

6. A body called the Formosan Self Government League (Taiwan Minshu Jichi Domei), has issued violent anti-Nationalist government propaganda pointed also against the United States and against the Formosan Independence League.

7. The largest Formosan organization in Japan is the Chinese Resident's Association (Chunichi Ryunichi Kakyo So Kai), with approximately 50,000 members and headquarters at 467 Marunouchi Building, Tokyo. President is HUANG Ting Fu (F) (KO Tei Fu) and vice president KAN Wen Fang (F) (KAN Bun Ho). This organization has not been shown to be directly involved in any Formosan independence movement.

CIS/SpInt APO 500

8. Indications point to a Perfect Independence Group (Kanzen Dokuritsu Ha) as the focal organization in Japan for the direct action independence program. There is a Formosan Independence Operation Committee Japan Branch (Taiwan Dokuritsu Undo Kosaku Iinkai Nippon Shibu) which issued a number of handbills on the subject in late 1948.

9. The chief instigators of Formosan independence in Japan are three Formosan individuals who are said to be in this country illegally:

TSONG Y. T. (So Yo Den, Chuang Yao Ch'uan)
LIM Frank S. (Rin Sun Sho, Lin Tsun Chang)
TANG G. D. (Chin Go Do, Wu Tong Chen, T'an G. T.)

10. These men work closely with:

HUANG Peter K (En Ki Ram, Wang Pi Tse, O Pi Taku), who in 1947 was the leader of the Formosan Youth League and a proponent of the proposal to place Formosa under United Nations trusteeship. HUANG was in Japan illegally from April to December 1948 for the alleged purpose of raising funds and enlisting SCAP support for the independence movement. He is now believed to be in Hong Kong which is the headquarters of Formosan League for Reemancipation, headed by LIAO Thomas W. I. (F) (LIAO Wen Yi) (RYU Bun Ki).

11. Although formerly closely associated with LIAO, the Tokyo trio, TSONG, LIM and TANG now seem to be operating more or less independently and have with considerable aggressiveness approached SCAP Diplomatic Section with appeals for United Nations support, including formal written representations. Recently, apparently somewhat annoyed at failure to achieve their purpose, they have indicated that they may establish a public Tokyo headquarters and call in the press to publicize their cause.

12. Although suspected of carrying on wide spread black market operations to finance their movement and themselves, investigations to date have furnished no firm information. A number of leads have been followed up involving Formosan, Chinese and Japanese smugglers and suspected dealers in contraband goods but no direct connections established.

13. In Formosa, TSONG is Chairman of Formosan League for Independence, TANG is Chairman of the Formosan People's League and LIM is Chairman of the Formosan Students League. Associated with them still in Formosa are KHU P.L., Chairman of the Formosan Literary Society, LIM Y.K., Chairman of the Formosan Economic Research Association, and Mrs. CHHOA S.L., Chairman of the New Formosan Women's Association.

14. A man named AN Tuang Hong (F) (KO Den Ko, HUNG Chuan Hung) is reported to be Chief of the Youth Organization Department, Japan Branch, Formosan League for Independence. The main organization has branch headquarters and responsible officials in Tokyo, Kyoto, Kobe, Osaka, Hiroshima, Nagoya, Fukuoka and Sendai.

15. TSONG who apparently is the ringleader in Japan of the direct action Formosan independence movement has named the following Japanese who he alleges are interested in rendering financial assistance:

Mr. UME and Mr. SHINA, directors of the Tohoku Woolen Manufacturing Company (Tohoku Keori K.K.,) located in Nihon-bashi, Chuo-ku, Tokyo. These men, he said, he contacted through a Mr. CHIHAYA who is on the staff of the Asahi newspaper.

16. TSONG revealed that he would like to engage the following Japanese in connection with the project:

Mr. KANEKO, former head of Bank of Taiwan, as financial advisor.

Mr. MORITA, former chief of Japanese Civil Administration in Formosa, as Administrative Advisor.

Mr. FUJISAWA Chikuo, as translator-interpreter.

SUMMARY OF INFORMATION

SUBJECT: Formosan Liberation Movements

1. On 8 April 49 a Summary of Information was submitted under this Subject, copy attached for reference. Since that time although a number of reports have been received from CIC under the general title "Formosan Underground" and certain reports have also been received from Compilations and CCD, few new disclosures of any importance have come to hand.

2. On the non-communist "Re-emancipation" side a considerable rift appears to have developed between leaders TSONG and LIM. TANG seems to have left Japan for Hongkong. Some correspondence has been intercepted passing between the titular lead of the movement in Hongkong, Thos. W. I. LIAO, and his cohorts in Tokyo which have indicated that they are trying to enlist the support of such persons as NEHRU, Jawaharal in India, and the Philippine president. Everyone is champing at the bit but apparently not doing much to further the cause. Lately TSONG has become very disparaging in his remarks about LIAO as well as about LIM and TANG, accusing them all of blundering tactics and of black market (penicillin and other drugs) operations. Indeed, in one written statement (TK-TOK-F-220, 30 Apr 49), TSONG alleges definitely that LIAO established relations with the communists as far back as the fall of 1947 when he moved to Hongkong from Shanghai. Among these, he claims, were three men, SHA Setsu Ko, SO Shin and YO Koku Ko, who formed the Formosan Autonomy League, the parent organization of the "Autonomous Liberation Group" in Japan headed by YANG Chun Sung (YO Shun Sho), reported in par 2 of S/I 8 Apr 49. These three, according to TSONG, were later repudiated by LIAO, but he hung on to two other commmnists, PUA Kim Shin (HAN Kin Shin) and SHAW Yu Shan (SHO Yu San) who are still among his top executives in the Formosan League for Re-emancipation headquarters in Hongkong.

3. With regard to communist activity in Formosa, the following is quoted from a communication written by Thos LIAO to Frank S. LIM in Tokyo, dated 27 Apr 49 (CCD-JP/TOS/4766):

"I heard that the Communists had already announced the appointment of their Governor of Formosa and evidently they are determined to cross the strait to occupy the Island. That is why they have intensified their activities and interest in the place and have become so openly anti-American and antagonistic against those Formosans friendly with America. The name of their Governor is TSAI Hsiao-chien, (a native of

Chang Hwa, born in 1905, educated in the defunct Shanghai University and later in Moscow. He was in the 5,000 mile march from Kiangsi to Yenan. This man is now directing all the communistic activities in Formosa at present, with a lot of fund supplied by the Chinese communists. Report this to SCAP immediately."

4. CI Operations Control is maintaining close liaison with Diplomatic Section (Dr. Spinks) in the Formosan question. Dr. Spink's latest word is that the entire matter has been reported to Washington with request for a policy decision in the event agitation becomes rife, but that to date no reply has been forthcoming.

SUMMARY OF INFORMATION

SUBJECT: Formosan Liberation Movements

1. The Formosan League for Re-Emancipation (rightist) headquarters at Hong Kong still continues to function under the leadership of Thomas W. I. LIAO, president of the organization, and to issue proclamation and other forms of publicity from time to time. However in a letter to his chief lieutenant in Japan Frank S. LIM, dated 27 June 1949, Dr. LIAO indicates that he may shortly move his headquarters to Manila, taking with him his brother Joshua as an advisor.

2. In above cited letter Dr. LIAO also intimates that he has been conferring with Philippine and U.S. "delegates" regarding the move to Manila and that possibly his next move will be to Washington. It appears that P. L. KHU, president of the Formosan Literary Society will remain in Hong Kong as representative of the League.

3. Regarding leaders in the Formosan League for Re-Emancipation who at one time or another have been reported in Japan the following is latest available information:

a. LIM, Frank S. is still active in Tokyo and in communication with Dr. LIAO (above). He managed to get some newspaper publicity through Ernest Hoberecht of U.P. in June which came out in the Stars and Stripes (8 June), and has sent memoranda to the Philippine Mission (Dr. Africa), SCAP's Diplomatic Section (Mr. Sebald), and the Prime Ministers of Australia and India.

b. TSONG, Y. T. has completely fallen out with LIAO and LIM, is in financial straits and is at present tutoring the son of a friend in Karuizawa. He is reported as embittered over the failure to obtain SCAP support and as denouncing LIM as being irresponsible and vain.

c. TANG, G. T. is believed to be outside of Japan.

d. HUANG, Peter is believed to be back in Formosa.

4. Although various Formosan organizations, both rightist and leftist, have been reported as existing in Japan, latest available information tends to show that amalgamations has taken place on both sides. The names of the two main organizations (easily confused because of their similarity) are:
